

Thank you and Congratulations for purchasing an Australian Lambs wool and Sheepskin Product

Ozwool.net Lambswool & Sheepskins are carefully selected for your health benefits.

When you receive your Lambswool & Sheepskin the wool may appear flattened. Do not worry, wool is a superior fibre, is extremely resilient and springy and will bounce back.

Simply run your fingers through the wool fibres, and then give the skin a vigorous shake and it will be back to original appearance very quickly. Any fold marks from packaging will disappear once the skin has been removed from the packaging for several days.

Storage

Lambswool & Sheepskin should be stored in a cool airy place away from direct sunlight. Guard against condensation **DO NOT** pack in plastic bags for long periods of time.

Lambswool & Sheepskin is a genuine natural wool/leather product and needs to be cared for the same way we care for leather products.

Washing

- Our Lambswool & Sheepskin products can be washed.
- Hand or machine wash once a month ideally using our Woolskin, Lambskin Shampoo & Woolwash with conditioner. See washing Instructions below.
- For effective washing and disinfection use suitable nonionic liquid detergent which does not contain enzymes, phosphates, peroxide, alkali or bleach. **DO NOT** use 'cold wash' liquid detergents or washing powders. We recommend Woolskin, Lambskin Shampoo & Woolwash with conditioner (<http://www.ozwool.net/wash.html>)
- Spin with fleece facing out to remove excess water.
- Long wool colours should be professionally dry cleaned.

Drying - ONLY our Green MEDICAL Sheepskin IS DRYER SAFE!

Air Dry your Lambswool & Sheepskin flat or on line and stretch to shape while damp. Dry away from direct heat or sunlight. Direct heat includes, fan heaters, heaters, bar heaters, radiators or steam heat, this can cause ill repairable damage and burn your Lambswool & Sheepskin. **DO NOT tumble dry. DO NOT iron.**

Brushing & Self Cleaning Care

Lambswool & Sheepskin is a natural because of lanolin in wool, regularly brush and airing will keep it fresh and help maintain its self cleaning properties.

After washing Lambswool & Sheepskin, the wool usually reverts back to its natural curly state. Restore Lambswool & Sheepskin appearance with a brisk brushing when wet and again when dry with a wire brush or comb like a pet brush or horse comb.

Infant Care - Short Wool Skins, including Underlay, Pram liners, Car seat inserts, Change mats, Ironing mats & Pet Mats

The following guideline has been provided as a guide to assist you and your baby to gain the full enjoyment and health benefits from your new baby sheep skin.

SIDS research has resulted in many changes to baby care and parenting practices. When sheep skin is used as part of baby's bedding it is recommended it should be short pile. It is NOT SAFE for baby to have a long wool Lambswool & Sheepskin. Our baby care range are all clipped and hypo allergic for baby safety so that there is no risk to baby safety from long wool fibres. Further more it is recommended that in the early baby stages a light sheet be laid over the top of the wool fibres.

Easy Care for Baby Lambswool & Sheepskin

- Air regularly and keep baby's bed fresh.
- Warm Machine Wash 40°C (104°F) on Wool Cycle
- Normal Spin Dry
- Air Dry away from Direct Heat
- Flex to Restore Shape
- Professionally Dry Cleanable

Lambswool & Sheepskin Bedding Underlay

Although, our Lambswool & Sheepskin underlays are machine washable Lambswool & Sheepskin they are big and get heavy when wet and are not recommend for home washing machines. Professional Dry-clean Recommended.

Lightly soiled areas can be sponge of with clean warm water and towel dried, allow to air dry before replacing bedding.

Pramliners & Car Seat Inserts

Our Pramliners and Car Seat Inserts are supplied in an “uncut” version. This is due to many prams and car seats having different and varying harness or strap configuration. Slits for the straps can easily be installed. Simply lay the product into what will be its normal position (above the straps) and slowly roll back the skin till you see the strap. Mark the position for the strap on the underside of the skin with a pen. Remove the skin from the pram or car seat and turn upside down (wool down) on a hard surface. The strap slot can now be cut with a sharp knife.

Install the lambswool product and enjoy
